

SAMPLE REPORT — Verified Prospect Research

Independent Roofing Companies · Tampa, Florida, USA · 25 prospects · Researched 2026-10-24 · VeriProspect

What this is

A demonstration sample (not a commissioned order) of a verified prospect list built for a web/marketing agency serving home-services clients. Every company was checked against its official website; the full spreadsheet (XLSX/CSV) carries the source URL and fit reason for every row. Emails and decision-makers appear only where the business publishes them — otherwise they are honestly marked 'Not publicly listed'. No data is guessed or pattern-filled.

QA summary

25 rows · 0 duplicates · 0 QA issues · public email on official site: 8/25 (32%) · named owner/decision-maker on official site: 4/25 (16%) · confidence: 12 High, 13 Medium, 0 Low. Known gaps: roofing websites rarely name their owners (6 further owner names exist only in press/directories and were excluded by our official-source rule); 3 companies are Tampa-serving with HQ just outside city limits and are flagged in their rows; one company had no official website URL captured in the listings checked.
